Did you get a hold of him? Can you give me his number?

Subject: Chemist data

Kip-

Pursuant to the data that you were able to provide to Dr. Vallaro regarding cases that chemists have worked on over the past years there are a few more requests for more information.

In addition to providing the number of cases that each chemist worked on it would be helpful to have the supporting data behind the numbers. That means the case id number (could consist of multiple lab numbers), the city/town that submitted the sample, and to distinguish whether the chemist was the first chemist or second chemist. I know that there are many fields you could include and I think it would be best at this time to include as much information as possible.

THIS IS TIME SENSITIVE and anything you could do to provide this tomorrow morning (Thursday) would be greatly appreciated.

Please feel free to call my cell at [REDACTED] if you have any questions.

Thanks,

Betsy
